# Joey Christian Bautista

**DEVELOPER**

Zamboanga City, Philippines | yemonstaa@gmail.com
yemonstaa.github.io/Portfolio | github.com/yemonstaa | kervoxa.site

## PROFILE

Developer building desktop applications, websites, and Java plugins, with hands-on experience in technical support and game-server operations. Focused on offline workflows, automation, and practical tools for businesses and online communities.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, Java, HTML, CSS, SQL

**Development:** React, Next.js, Electron, Capacitor, Node.js, SQLite, MySQL, Git, GitHub

**Platforms and support:** Paper, Discord.js, Pterodactyl, Windows/Linux troubleshooting, JVM configuration

## EXPERIENCE

**EnderHost | Technical Support and Infrastructure Specialist** Jun 2026 - Present

- Troubleshoot game-server crashes, Java runtimes, JVM settings, and startup commands through client support tickets.
- Resolve plugin dependencies and version conflicts, and assist clients with custom server configurations.

**Small Business and B2B Solutions | IT Troubleshooter** Sep 2025 - Present

- Diagnose hardware, software, and network issues for internal staff and business clients.
- Deploy and configure client systems; perform maintenance, updates, and repairs to support daily operations.

## SELECTED PROJECTS

**ChickenRunnerPOS | Desktop POS and Android prototype**

Electron, React, TypeScript, SQLite, Capacitor, Node.js, MySQL

- Built an offline-first register with role-based access, barcode checkout, inventory tracking, protected refunds, sales reports, backups, and ESC/POS receipt printing.
- Added branch reporting and catalog synchronization through a Node.js/MySQL service; developed a separate Android prototype for phone and tablet cashier workflows.

**Kervoxa Website | Next.js, TypeScript, Tailwind CSS, PHP**

- Developed a responsive services website with project case studies, a keyboard-accessible screenshot gallery, and a validated inquiry workflow.

**MFMachines | Java 21, Paper, SQLite**

- Built persistent Infinity Chests, linked item Collectors, and battery-powered Chunk Loaders with configurable GUIs, trust permissions, and Vault economy integration.

## EDUCATION

**Bachelor of Science in Information Technology** 2024 - Present

Zamboanga City State Polytechnic University

## CERTIFICATE

**Introduction to SQL** | SoloLearn | October 21, 2026
Credential CC-F1R6QDRT
